DISCIPLINE STRUCTURE
MERIT AND DEMERIT SYSTEM

In order to help students make positive choices and to create a positive climate for learning, the use of a merit and demerit system will be implemented to address behaviour. The system below will provide rewards for positive behaviours and consequences for negative behaviours.

This system is intended to assist students in making good choices thus producing well-behaved students. Our ultimate goal is to develop students who are self-disciplined and good citizens.

The prefectorial board is expected to handle minor discipline incidents in the classroom as well as in common areas of the school such as hallways, cafeteria, during Axcel Programs and field trips. While verbal reprimands are usually appropriate and sufficient to correct minor misbehaviour, some incidents may be disruptive enough or persistent enough to warrant interventions such as one-on-one counselling, warning letters or parent-teacher meetings.

Major infractions may result in disciplinary action that is not addressed through the use of demerits.

The merit/ demerit system is a school-wide discipline plan that should be focused on behaviour and is not connected to academics. Only teachers are allowed to issue merits and demerits based on the specifications stated below. Prefects act as facilitators of the process by identifying the behaviours that have earned merits or demerits.

Below are the broad guidelines on the Merit & Demerit marks, the School reserves the right to amend/change/update the criteria and marks from time to time to suit the operational needs.

Any student may have merits assigned to help facilitate the importance of good behaviour and to reward positive changes in behaviour.

This list of good behaviours is intended as a guide and is not exhaustive. While it highlights key aspects of positive conduct we expect from students, it should be understood that other forms of good behaviour, not explicitly mentioned here, are also valued and encouraged in our school community.
